

GET TO KNOW YOUR COMMUNITY OF HEALTH, EDUCATION AND RECREATION PROVIDERS

Salina Family Dental

Salina Family Dental is celebrating their 10 year Anniversary. Dr. Sithole and the entire staff make sure each and every client is taken care of with the highest professionalism. Great dental care is important and Salina Family Dental has been making smiles beautiful for many years. Their dental practice takes care of patients of all ages, and as a convenience to you the patient, they have weekend hours every other week. We want children to feel comfortable for their visits, and believe that our staff from the first visit to every visit thereafter makes each child feel great about seeing the dentist. School will be starting shortly and it is a great time for you and your family to get your cleanings and exams done!

Bright smiles and great teeth are what you have. Located conveniently on Buckley Road in Liverpool, you can contact their office to schedule an appointment. 315.457.7393

BASCOL

BASCOL is not just a before and after school program, though. With many parents working throughout the summer, BASCOL provides the perfect place to help their children grow while school is out. The BASCOL summer program began in the summer of 1997, providing full-day care for 10 ½ weeks during the summer at two locations in Onondaga County and brand new this year, BASCOL offered a summer program in the Central Square School District. And with exciting field trips, like visiting the Rosamond-Gifford Zoo, the MOST, and Thunder Island, who wouldn't want to join in the fun?!

BASCOL's program is all-inclusive, meaning children of ALL abilities come together to learn and play. Recently, the program was awarded a \$10,000 grant from the National Inclusion Project, Let's ALL Play, which was a huge honor. BASCOL's recreational based program opens the door to all kinds of activities for ALL children. All accy, physical education, health and nutrition, science discovery and social/emotional development.

Tawn Marie Dance Centre

Liverpool native Tawn Marie Campolieti made her dream of owning a dance studio a reality when she opened her studio at age 26. Tawn Maries Dance Centre was established in 1996. Since then we have been teaching the love of dance to students from all over central N.Y.

"Dancers deserve the exact type of training they are looking for," Campolieti said. "Whether they want to dance competitively or if they just love it and want to do it as hobby. Whatever that child wants, dance should provide it and that is what we do here with top notch teachers and instruction."

Our studio features a very strong preschool and childrens program. We also have preteen and teen classes, as well as an award winning competition team. The studio was named a "Top Studio in the U.S" by Dance Teacher Magazine and by BDancewear. Our belief is to teach strong technique in a caring and positive environment. We feature classes in ballet/pointe, jazz, lyrical, contemporary, tap and acrobatics. Classes start September 12th. Call 457-3151 to get registered.

Huntington Learning

Since 1977, Huntington Learning Center has helped children reach their academic potential. As the first and longest running learning center, Huntington offers individualized instruction in reading, mathematics, writing, and guidance for improving vital study skills. We also offer a proven program of SAT and ACT test preparation, utilizing expert instructional techniques founded on decades of Huntington's professional expertise. At Huntington, we understand that one size does not fit all students. Our method is a multi-step approach that truly sets our programs apart. We start by conducting an academic evaluation for each student that pinpoints strengths and weaknesses. Based on the results of the evaluation, we develop a personalized learning plan targeted to meet each student's needs so that their tailor made instruction helps them learn at their pace, on their level, to build skills, confidence, and motivation. The sooner Huntington steps in, the sooner grades step up.
